

BA/BSc courses in the Business School for the Creative Industries

Additional Course Costs

<p>Equipment/materials needed</p>	<p>Equipment costs for this course are minimal but it is recommended that you have your own computer or laptop. You may choose a Mac or a PC, whichever you prefer to use. Most of the computers on the department are Macs but there are also some PCs and it is largely down to personal choice which one you decide to invest in. Subscription of Adobe software is licensed by the university for all students.</p> <p>While you will have access to UCA printers, you are also advised to prepare for costs of external printing and binding for unit submissions. One of your greatest costs on this course will be colour printing and binding.</p>
<p>Equipment/materials recommended</p>	<p>External Hard Drive USB Notebooks and stationery</p>
<p>Visits</p>	<p>We will more than likely organise international study trips during your time on the course. Costs vary from year to year but competitive rates are always secured. Smaller one-off day trips to factories/companies/field trips and exhibitions may require a contribution to ticket costs and you will need to cover the cost of travel to these visits. We hope as many students as possible will be able to participate in study trips but they are all optional.</p> <p><i>Please note that whilst we will do our best to organise these trips, they will be dependent on COVID-19 Guidelines.</i></p>
<p>Placement</p>	<p>The course includes a compulsory placement at the end of the second year. The average costs for placement are £150 pounds in travel and incidental expenses. Where a placement is undertaken at UCA these costs may be significantly lower.</p> <p>Please also note that the placement unit is likely to be unpaid; some companies offer pay, travel and lunch but terms and conditions will vary.</p>
