

Estate Agents Sympathetic to Students

Estate Agents rent houses to groups of students, rather than individual rooms. The best time to contact Estate Agents to register interest in letting a student house is between about March - June. To save time, you should provide the Letting Agent with a printed list of the full names and contact numbers for all members of your group looking for accommodation.

Local supermarkets sometimes have community notice boards. We also recommend that you check in the windows of local newsagents and local papers, both of which often carry adverts for local accommodation.

IMPORTANT

The University for the Creative Arts can accept no responsibility for the Agents listed. The Accommodation Services Officer will not have visited any of the properties advertised through the above Agents, and it is the students' responsibility to check the condition and suitability of any property. Students should ask to see copies of Gas Safety Certificates and check their validity.

Please note that most Letting Agents require a minimum 6 months rental period.

Ensure you check with the Agent what the fees involved are during your initial enquiries.
