

MA Visual Communication - Canterbury

Additional Course Costs

<p>Equipment/materials needed</p>	<p>The course will pay for materials used during inductions, specifically during printmaking inductions. There will be some costs incurred during the course.</p> <p>Once printmaking inductions are over you will have to pay for printmaking materials such as screens, plates, paper, etc. Professional quality Digital Printing (A4 up to large format A0+ sizes) is available through our print bureau at much reduced prices from those available commercially. There is also a very competitively priced shop where you can purchase notebooks, sketchbooks, art materials, mounting materials, papers, etc.</p>
<p>Equipment/materials recommended</p>	<p>You are not required to own your own computer for this course, but we do advise that if you are able that you have a computer capable of running adobe creative cloud applications (UCA provides access to this software).</p> <p>If you are not able to purchase a computer then you will have access to extensive Mac suites and we also have Macs within all of our studio spaces.</p>
<p>Visits</p>	<p>This course, in the past, has made overseas trips in the second year of study – these will be planned in consultation with students. Students will be asked to pay for these visits themselves but trips are not mandatory. We will also offer one day field trips within the UK and students will be asked to make a small contribution towards the cost of these.</p> <p><i>Please note all visits are subject COVID-19 related travel restrictions.</i></p>
