

UNIVERSITY FOR THE CREATIVE ARTS

PROGRAMME SPECIFICATION FOR:

MA VISUAL COMMUNICATION

PROGRAMME SPECIFICATION [ACADEMIC YEAR 2019/20]

This Programme Specification is designed for prospective students, current students, academic staff and potential employers. It provides a concise summary of the main features of the programme and the intended learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if he/she takes full advantage of the learning opportunities that are provided. More detailed information on the teaching, learning and assessment methods, learning outcomes and content of each unit can be found in the Unit Descriptors.

Section A – Material Course Information

Validating Body	University for the Creative Arts ¹		
Teaching Body	University for the Creative Arts		
Final Award Title and Type	Master of Arts		
Course Title	Visual Communication		
Course Location and Length	Campus: Canterbury	Length: Full time: 1 year Part time: 2 years	
Mode of Study	Full-time	✓	Part-time ✓
Period of Validation	2017/18 – 2021/22		
Name of Professional, Statutory or Regulatory Body	Not Applicable		
Type of Accreditation	Not Applicable		
Accreditation due for renewal	Not Applicable		
Entry criteria and requirements ²			
<p>Standard UCA MA entry requirements (for courses requiring a portfolio):</p> <ul style="list-style-type: none"> • A good Honours degree or equivalent qualification in the subject or a related discipline and/or • Relevant work experience, demonstrating your ability to study at postgraduate level. • Consideration will also be given to applicants who can make a strong case for admission in relation to a particular project and can demonstrate their potential to satisfactorily complete the course. <p>Portfolio</p> <p>For this course, we'll require you to attend an Applicant Day and bring your portfolio for assessment. Further information on how to compile a portfolio and the specific requirements for examples of work to be included will be provided on the Applicant Portal after you've applied.</p> <p>If you are unable to attend an applicant day, you will be able to submit a portfolio electronically via the Applicant Portal.</p> <p><u>Minimum English language requirements:</u></p> <p>If your first language is not English a certificate is required as evidence that you have an average IELTS score of 6.0 or equivalent. If you are applying as an international student from a country outside the EU and require a visa to study in the UK, you will also need a</p>

Section B - Course Overview

MA Visual Communication at UCA Canterbury is designed to prepare graduates for professional practice and academic careers. Graduates will enter the professional world with a confident design voice and an outstanding body of work. They will become creative leaders developing careers within the broad field of visual communication, they are likely to work within one or more of the following specific areas – print media, editorial content, book arts, social media, interaction design, motion design, web design, environmental/exhibition design and advertising.

This course appeals to a wide range of applicants, from home students returning to education after a period in work to international students with undergraduate experience in other discipline areas. Typically, applicants hold an undergraduate degree in graphic design, visual communication, illustration, communication design or other directly related areas, and/or have professional design experience. However, applicants are considered that indicate a strong aptitude for graduate study within the discipline of visual communication. This includes those who have studied or worked in related fields such as industrial and interior design, architecture, fine arts, film and journalism; or beyond – this course allows applicants with aptitude to develop their interests and aspirations over the period of the course (aptitude will be determined through portfolio, personal statement and interview as appropriate).

To reflect and support this wide range of students the course is front-loaded with skills workshops in areas such as printmaking (inc. screen printing/letterpress etc.), digital print, digital motion, desktop publishing, web and app design. Alongside the development of skills students learn how to research, analyse and generate ideas through our seminar and tutorial programme.

This course is comprised of both one year full-time and two year part-time modes.

Students are encouraged to discover and develop new skills to strengthen and inform their practice, but are also urged to interrogate those very skills in order to understand them and innovate through them.

The course understands that the skill sets required for print, motion, and digital design are broad, complementary and interrelated. This approach differentiates this course from the MA Graphic Design course in Epsom that instead offers a narrower and specialist focus. Another distinction is the Canterbury location itself, with its city centre location, access to the coast and the channel tunnel (developing cross-European links that are already embedded in our BA programmes) and the fast train link to London.

We believe the most intriguing and successful designers are cultural innovators who through their practice inform, persuade, and entertain. Our graduates develop a voice as authors and innovators engaged in identifying and solving design problems within cross-disciplinary environments. We approach design as an agent of change – a strategy for positively transforming behaviours in desirable and sustainable ways.

Throughout the duration of this course students will encounter leading visual communication practitioners, as visiting lecturers, and also through our seminar, workshop and lecture series. There will also be opportunities for creative industry based project activities and client facing projects that the course team run alongside scheduled course activities.

In the first unit 'Context and Method' you will develop through the field of visual communication an appreciation of the various theoretical discourses that have informed, and been informed by, practice.

The second unit 'Project Development' will enable you to develop a body of work in reference to a self-initiated project proposal, evaluating and testing the aims of this proposal over a sustained period of self-directed study.

Through the unit 'Defining Your Practice' you will investigate and explore the potential of a range of specific themes and approaches to contemporary visual communication practices and craft skills. You will be able to define your creative practice specifically within the broad field of visual communication.

The summation of the course is 'Realisation and Dissemination'. This unit is the culmination and consolidation of your studies in the form of a resolved piece, or body of work, it will demonstrate coherence and innovation at a professional level. Your outcome for this unit will be displayed through an exhibition.

Section C - Course Aims

- A1 Encourage the development of creative, confident, informed and contemporary working practices to enable professional employment, further postgraduate research and lifelong learning.
- A2 Promote in-depth rigorous engagement with the expanded field of Visual Communication through a curriculum that closely combines practice with theory.
- A3 Offer practitioners the opportunity to transition from other creative disciplines to Visual Communication through curriculum that covers technical, theoretical and conceptual tuition.
- A4 Promote informed and focussed independent learning through placing the student at the centre of the learning experience.
- A5 Provide an approach to the subject that is experimental, flexible, adaptable, sustainable, and informed by rigorous research.

Section D - Course Outcomes

Upon successful completion of the course students are able to:

Knowledge:

LO1 Research

Identify and rigorously investigate specific sources using appropriate research methods leading to new concepts or insights into existing Visual Communication practice.

LO2 Analysis

Methodically and critically analyse and evaluate existing knowledge proposing new hypotheses.

Understanding:

LO3 Subject Knowledge and Understanding

Demonstrate a comprehensive and critical understanding of Visual Communication and its underlying principles.

LO4 Experimentation

Demonstrate experimentation, risk taking, problem solving and deduction in relation to both ideas and materials in order to advance your practice.

Application:

LO5 Technical Competence and Understanding

Demonstrate advanced skills and processes appropriate to Visual Communication and present work in a highly sophisticated manner appropriate to the audience and context.

CO6 Personal and Professional Development

Demonstrate commitment to the subject, engagement and attendance with the course, appropriate planning, organisation, critical reflection and self-directed project management.

Section E - Learning, Teaching and Assessment

Learning and Teaching Strategy

MA Visual Communication is a studio-based course, with the environment of shared working space and workshop areas strongly impacting upon the overall pedagogic approach. The course is delivered through a series of units that comprise of a range of project briefs, workshops and written assignments. Scheduled activity primarily consists of group critiques, individual tutorials, workshops and lectures.

The course is overseen by the Course Leader for Graphic Design: Visual Communication/Illustration & Animation and primarily delivered by a diverse team of lecturers; all subject specialists, designers, academics and researchers. They are supported by a range of visiting practitioners and lecturers.

Assessment Strategy

Assessment is approached as an ongoing process, with emphasis placed upon the feedback that students receive on a day-to-day basis, from both tutors and peers. Work is assessed holistically by portfolio at the end of each unit, allowing for a breadth of work and the consideration of individual strengths and weaknesses. Learning Outcomes and Assessment

Criteria are written under the same headings for each unit, allowing students to clearly chart their progress.

At the summative assessment point, students receive a 1:1 tutorial alongside their written feedback which allows tutors to respond to individual student needs and facilitate discussion around their work and future career.

Section F - Enhancing the Quality of Learning and Teaching

The course is subject to the University's rigorous quality assurance procedures which involve subject specialist and internal peer review of the course at periodic intervals, normally of 5 years. This process ensures that the course engages with the applicable national Subject Benchmarks and references the Framework for Higher Education Qualifications.

All courses are monitored on an annual basis where consideration is given to:

- External Examiner's Reports
- Key statistics including data on retention and achievement
- Results of the Student Satisfaction Surveys
- Feedback from Student Course Representative
